Notes to Condensed Consolidated Financial Statements
For the three months ended September 30, 2020 and 2019
(Expressed in Canadian Dollars - Unaudited)

1. NATURE AND CONTINUANCE OF OPERATIONS

ZincX Resources Corp. (the “Company”) is incorporated under the laws of the Province of British Columbia. The Company operates in one business segment, that being the exploration and evaluation of resource properties in Canada, and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete their development, and upon future profitable production.

The Company’s shares trade on the TSX Venture Exchange (“TSX-V”) under the symbol ZNX.

The Company’s head office and principal address is Suite 2050-1055 West Georgia Street, PO Box 11121, Royal Centre, Vancouver, BC V6E 3P3. The registered and records office is Suite 400, 725 Granville Street, Vancouver, BC, V7Y 1G5.

These condensed consolidated interim financial statements have been prepared on a going concern basis, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since its inception and the ability of the Company to continue as a going-concern depends upon its ability to raise adequate financing and to commence profitable operations in the future.

While the Company has been successful in obtaining its required financing in the past, mainly through the issuance of equity capital, there is no assurance that such financing will be available or be available on favorable terms. An inability to raise additional financing may impact the future assessment of the Company as a going concern. The condensed consolidated interim financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on business operations cannot be reasonably estimated at this time. There can be no assurance that the Company will not be impacted by adverse consequences that may be brought about by the pandemic’s impact on its business, results of operations, financial position and cash flows in the future.

At September 30, 2020, the Company has a positive working capital position of \$1,005,370 (June 30, 2020 - \$1,180,382). Management believes the Company has sufficient working capital to maintain its operations for the next fiscal year.

These financial statements were authorized for issue on November 24, 2020 by the directors of the Company.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

Statement of compliance

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”).

Basis of preparation

These condensed consolidated interim financial statements of the Company have been prepared on an accrual basis except for certain cash flow information, and are based on historical costs, except for certain financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. The consolidated financial statements are presented in Canadian dollars, which is also the functional currency of the Company and its subsidiary unless otherwise noted.

Principles of consolidation

These condensed consolidated interim financial statements include amounts of the Company and its wholly owned subsidiary Ecstall Mining Corp. (“Ecstall”), a company incorporated under the laws of the Province of British Columbia and engaged in the exploration and evaluation of resource properties.

Subsidiaries are corporations in which the Company is able to control the financial operating, investing and financing activities and policies, which is the authority usually connected with holding majority voting rights. The consolidated financial statements include the accounts of the Company and its controlled entity from the date on which control was acquired. Ecstall uses the same reporting period and the same accounting policies as the Company.

All inter-entity balances and transactions, including unrealized profits and losses arising from inter-company transactions, have been eliminated in full on consolidation.

These condensed consolidated interim financial statements have been prepared using accounting policies consistent with those used in the Company’s annual financial statements for the year ended June 30, 2020. It is, therefore, recommended that these condensed interim financial statements be read in conjunction with the Company’s audited consolidated financial statements for the year ended June 30, 2020.

3. RECEIVABLES (cont'd)

The Company anticipates full recovery of its receivables and, therefore, no impairment has been recorded against these amounts.

4. MARKETABLE SECURITIES

Marketable securities consist of common shares of public companies that are measured at fair value, which is determined using quoted closing prices of the shares on the exchange where they are listed, at the end of each reporting period. Effective July 1, 2018, pursuant to adoption of IFRS 9, a change in fair value of the marketable securities is included in profit and loss for the period.

The Company's marketable securities transactions are as follows:

	September 30, 2020	June 30, 2020
<i>Common shares of public companies:</i>		
Fair value, beginning of period	\$ 33,625	\$ 41,875
Proceeds from sales	(28,225)	–
Realized gain on sales	9,710	–
Unrealized gain	3,250	(8,250)
Fair value, end of period	\$ 18,360	\$ 33,625

5. INVESTMENTS

Investments consist of highly liquid Canadian dollar denominated non-redeemable guaranteed investment certificates ("GIC") yielding an average fixed interest rate of 1.7% to 2.38% per annum with maturity dates within one year. The investments are classified as "fair value through profit or loss" financial assets. The counterparty is a financial institution.

At September 30, 2020, the Company held GIC investments with total principal amount of \$2,312,000 (June 30, 2020 - \$2,412,000) and accrued interest of \$27,809 (June 30, 2020 - \$16,043).

During the three months ended September 30, 2020, the Company redeemed net \$100,000 (2019 - \$753,768) of its GIC investments and received an aggregate interest of \$Nil (2019 - \$10,047) from the redemption of the GIC investments.

6. OTHER ASSETS

Other assets comprise of reclamation bonds totaling \$332,500 (June 30, 2020 – \$332,500) posted as security deposits with the Government of British Columbia in relation to the Akie and Kechika Regional properties. The reclamation bonds are deposited in GICs through a financial institution and earn an average annual variable interest rate of approximately prime minus 1.85% with a minimum of 0.25% and reinvested on an annual basis immediately at maturity. Interest accrued on the GICs is included in receivables (Note 3).

7. TRADE PAYABLES AND ACCRUED LIABILITIES

	September 30, 2020	June 30, 2020
Exploration payables	\$ 2,146	\$ 893
Other trade payables	22,275	25,007
Accrued liabilities	42,161	41,399
	\$ 66,582	\$ 67,299

8. RIGHT-OF-USE ASSET AND LEASE LIABILITY

On December 1, 2010, the Company entered into a sublease agreement with a company for its corporate office located in Vancouver, B.C. for a period of 10 years, expiring November 30, 2020, in exchange for \$5,000 per month plus applicable taxes. The sublease agreement was amended effective April 1, 2015 to increase the monthly rent rate to \$7,500 per month plus tax.

Effective July 1, 2019, the Company adopted IFRS 16 and recognized a lease liability of \$118,422 and a corresponding right-of use asset in relation to its office lease. The lease liability was measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate.

The following table presents the right-of-use asset for the Company:

Right-of-use asset, July 1, 2019	\$ 118,422
Depreciation	(20,898)
Right-of-use asset, September 30, 2019	97,524
Depreciation	(62,694)
Right-of-use asset, June 30, 2020	34,830
Depreciation	(20,898)
Right-of-use asset, September 30, 2020	\$ 13,932

Depreciation is recognized on a straight line basis over the remaining lease term.

8. RIGHT-OF-USE ASSET AND LEASE LIABILITY (cont'd)

During the three months ended September 30, 2020, the Company also recognized interest expense of \$734 (2019 - \$2,797) on lease liability according to IFRS 16 requirements. Cash payments related to the office lease were \$22,500 (2019 - \$22,500).

The reconciliation of lease liability is presented in the table below:

Lease commitments as at June 30, 2019:

9. FLOW-THROUGH PREMIUM LIABILITY

Balance, beginning of period	\$ 29,992	\$ 241,445
Recorded	–	29,992
Amortized	–	(241,445)
Balance, end of period	\$ 29,992	\$ 29,992

In December 2019, the Company completed a flow-through private placements issuing an aggregate of 1,016,666 flow-through shares (Note 13(b)) at a price of \$0.15 per share for gross proceeds of \$152,500. The Company recorded a flow-through liability of \$29,992 in connection with the flow-through private placements, which was calculated based on an estimated premium of approximately \$0.029 per flow-through share issued.

As at September 30, 2020, the Company has not incurred qualifying exploration expenditures with respect to its 2019 flow-through commitments. The Company has fully renounced exploration of expenditures of \$152,500 to the flow-through subscribers for calendar 2019 using the “look back” rule for income tax purposes and is required to incur the qualified exploration expenditures by December 31, 2020. In response to difficulties to accessing the field due to Covid19, the government proposed to extend the timelines for spending the qualified exploration expenditure by 12 months, and Part XII.6 tax adjusted accordingly. However, the proposal has not been finalized.

The flow-through premium liability does not represent a cash liability to the Company, and is to be fully amortized to the statement of operations and comprehensive loss pro-rata with the amount of qualifying flow-through expenditures incurred. The flow-through agreements require the Company to renounce certain deductions for Canadian exploration expenditures incurred on the Company’s resource properties.

When the Company uses the “look-back” rule to renounce exploration expenditures to investors before the Company actually incurs them, the Company is liable for the flow-through Part XII.6 tax (“FT Tax”). The FT Tax related to the 2019 flow-through renunciations is payable on or before February 28, 2021. The reconciliations of the accrued and paid 2019 FT Tax for the period ended September 30, 2020 and for the year ended June 30, 2020 are as follows:

	September 30, 2020	June 30, 2020
Balance, beginning of period	\$ 1,271	\$ 10,451
Accrued	763	1,795

10. CEBA LOAN

On April 30, 2020, the Company received the Canada Emergency Business Account (“CEBA”) loan which is an interest-free loan to cover operating costs. The CEBA loan was launched by the government of Canada to support businesses by providing financing for their expenses that cannot be avoided or deferred, and assisting businesses for successful relaunch when the economy recovers from COVID-19. Repaying the balance of the loan on or before December 31, 2022 will result in a loan forgiveness of \$10,000.

Pursuant to IAS 20 *Accounting for Government Grants and Disclosure of Government Assistance*, the benefit of a government loan at below-market rate is treated as a government grant and measured in accordance with IFRS 9 *Financial Instruments*: the benefit of below-market rate shall be measured as the difference between initial carrying value of the loan (being the present value of a similar loan at market rates) and the proceeds received. The Company has estimated the initial carrying value of the CEBA Loan at \$30,671, using a discount rate of 10%, which was the estimated rate for a similar loan without interest-free component. The difference of \$9,329 will be accredited to the loan liability over the term of the CEBA Loan and offset to other income on the statement of loss and comprehensive loss.

12. EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many resource claims. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of its claims are in good standing.

Akie Property, British Columbia

The Akie property is the Company's flagship exploration project and is host to the Cardiac Creek SEDEX Zn-Pb-Ag deposit. The Company owns a 100% interest in the Akie property, which resulted from Company expenditures and the acquisition of Ecstall Mining Corporation.

Kechika Regional project, British Columbia

The Kechika Regional project, represented by a series of contiguous property blocks including Pie and Mt. Alcock, extends northwest from the Akie property. The Company owns a 100% interest in these properties, which were acquired during fiscal 2007 and 2008, including the acquisition of Ecstall. The interest in the Mt. Alcock property is subject to a 1.0 % net smelter royalty.

In September 2013, the Company entered into an option agreement (the "Agreement") with Teck Resources Limited ("Teck") pursuant to which Teck could acquire up to a 70% interest in the Company's Pie, Cirque East and Yuen properties (the "Property"), three of the 10 regional properties that make up the Kechika Regional Project, on or before September 30, 2019.

In December 2017, Teck and Korea Zinc completed the requirements of the First Option to earn a 51% interest in the Property

In January 2018, Teck and Korea Zinc informed the Company that they would not be proceeding with the Second Option to earn an additional 19% interest in the Property. According to the terms of the Agreement, the parties will continue exploration of the Property under a Joint Venture arrangement on the 49%-51% basis, with Teck acting as the operator.

15. RELATED PARTY TRANSACTIONS (cont'd)

Transactions with key management and other related party transactions:

- (i) Pursuant to a management and administrative services agreement amended effective July 1, 2011 and May 1, 2014 with Varshney Capital Corp. ("VCC"), a company with two common directors, the Company agreed to pay monthly management and administrative fees of \$29,500 and \$5,000, respectively. Effective March 1, 2020, the management fees were reduced to \$15,000 per month.
During the three months ended September 30, 2020, the Company paid \$45,000 (2019 – \$88,500) for management fees and \$15,000 (2019 – \$15,000) for administrative fees to VCC;
- (ii) the Company paid \$2,000 (2019 - \$3,750) for consulting fees to a company controlled by a director;
- (iii) the Company paid or accrued exploration and evaluation costs of \$29,030 (2019 - \$40,320) for geological consulting fees to a company owned by VP of Exploration of the Company, of which \$25,643 (2019 - \$38,304) was capitalized as exploration and evaluation costs and \$3,387 (2019 - \$2,016) was expensed as consulting fees;
- (iv) other employment benefits included life insurance and health benefits for the CEO and health benefits for the CFO of the Company; and
- (v) the Company received an advance of \$1,399,686 from a significant shareholder, Tongling Non-Ferrous Metals ("Tongling"), to fund a drill program on the Akie Property. The advance will be repaid in common shares of the Company to Tongling valued at a minimum of \$0.30 per share, subject to TSX-V approval.

16. CAPITAL MANAGEMENT

The Company's objectives of capital management are intended to safeguard the entity's ability to support the Company's normal operating requirement on an ongoing basis, continue the development and exploration of its mineral properties, and support any expansionary plans. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company considers its capital to be equity.

The Company's operations are currently not generating positive cash flow; as such, the Company is dependent on external financing to fund its activities. In order to carry out potential expansion and to continue operations, and pay for administrative costs, the Company will spend its existing working capital, and raise additional amounts as needed. Companies in this stage typically rely upon equity and debt financing or joint venture partnerships to fund their operations.

The current financial markets are very difficult and there is no certainty with respect to the Company's ability to raise capital. However, the Company estimates that it has sufficient working capital to continue with planned activities.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company's overall strategy with respect to capital risk management remained unchanged during the three months ended September 30, 2020. The Company is not subject to any externally imposed capital requirements.

17. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments as at September 30, 2020 were as follows:

	<i>Fair Value through</i>	
	<i>Profit or Loss</i>	<i>Amortized Cost</i>
Financial assets		
Cash	\$ 117,032	\$ –
Receivables	–	818
Marketable securities	18,360	–
Investment	2,339,810	–
Financial liabilities		
Trade payables and accrued liabilities	–	66,582
Due to related parties	–	1,398,686
Government Loan	–	31,970
	\$ 2,475,202	\$ 1,498,056

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of the financial instruments by valuation technique:

- i) Level 1 – Applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.
- ii) Level 2 – Applies to assets or liabilities for which there are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly such as quoted prices for similar assets or liabilities in active markets or indirectly such as quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions.
- iii) Level 3 – Applies to assets or liabilities for which there are unobservable market data.

Cash, investments, and marketable securities are carried at fair value using a level 1 fair value measurement. The carrying value of receivables, loan receivable and trade payables and accrued liabilities approximate their fair value because of the short-term nature of these instruments.

17. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its bank deposits of \$117,032 (June 30, 2020 - \$208,938) and short-term investments in GICs with the fair value of \$2,339,810 (June 30, 2020 - \$2,428,043). This risk is managed by using major Canadian banks that are high credit quality financial institutions as determined by rating agencies.

The Company's secondary exposure to credit risk is on its receivables. This risk is minimal as receivables consist primarily of refundable government sales taxes and interest accrued on GIC investments.

Liquidity Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. The Company achieves this by maintaining sufficient cash and cash equivalents. As at September 30, 2020, the Company was holding combined cash and investments of \$2,456,842 (June 30, 2020 - \$2,636,981) to settle its current liabilities of \$1,510,075 (June 30, 2020 - \$1,534,557). Management believes it has sufficient funds to meet its current obligations as they become due and to fund its exploration projects and administrative costs for the next 12 months.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant and the Company, has exposure to these risks.

a. Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The Company is not exposed to significant interest rate risk.

b. Currency Risk

The Company operates in Canada and is therefore not exposed to significant foreign exchange risk arising from transactions denominated in a foreign currency.

c. Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors certain commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

17. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)

The Company also maintains investments in certain marketable securities. There can be no assurance that the Company can exit these positions if required, resulting in proceeds approximating the carrying value of these securities.
