## 1. NATURE AND CONTINUANCE OF OPERATIONS

ZincX Resources Corp. (the “Company”) is incorporated under the laws of the Province of British Columbia. The Company operates in one business segment, that being the exploration and evaluation of resource properties in Canada, and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete their development, and upon future profitable production.

The Company’s shares trade on the TSX Venture Exchange (“TSX-V”) under the symbol ZNX. The Company’s shares also trade on the OTCQB market, a U.S. trading platform that is operated by the OTC Markets Group in New York, under the ticker symbol “ZNCXF” and on the Frankfurt Exchange under the symbol “M9R”.

The Company’s head office and principal address is Suite 2050-1055 West Georgia Street, PO Box 11121, Royal Centre, Vancouver, BC V6E 3P3. The registered and records office is Suite 2501, 550 Burrard Street, Vancouver, BC, V6C 2B5.

These consolidated financial statements have been prepared on a going concern basis, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since its inception and the ability of the Company to continue as a going-concern depends upon its ability to raise adequate financing and to commence profitable operations in the future. During the period ended September 30, 2023, the Company incurred a loss of \$445,163 (2022 - \$195,137). As at September 30, 2023, the Company has accumulated deficit of \$95,299,303 (June 30, 2023 - \$94,854,140).

While the Company has been successful in obtaining its required financing in the past, mainly through the issuance of equity capital, there is no assurance that such financing will be available or be available on favorable terms. An inability to raise additional financing may impact the future assessment of the Company as a going concern. The consolidated financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. At September 30, 2023, the Company has a working capital deficiency of \$311,813 (June 30, 2023 – working capital deficiency of \$158,248). Management may require to seek additional sources of financing in the form of equity or debt financing in the future to maintain its operations and its exploration activities for the fiscal year. These material uncertainties may cast significant doubt about the Company’s ability to continue as a going concern.

These financial statements were authorized for issue on November 29, 2023 by the directors of the Company.

## 2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

### ***Statement of compliance***

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Accounts Standards (“IAS”) 34, “Interim Financial Reporting” using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”).

The consolidated financial statements of the Company have been prepared on an accrual basis except for cash flow information and are based on historical costs, modified where applicable. The consolidated financial statements are presented in Canadian dollars unless otherwise noted.

### ***Basis of preparation***

These consolidated financial statements of the Company have been prepared on an accrual basis except for certain cash flow information, and are based on historical costs, except for certain financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. The consolidated financial statements are presented in Canadian dollars, which is also the functional currency of the Company and its subsidiary.

### ***Principles of consolidation***

These consolidated financial statements include amounts of the Company and its wholly owned subsidiary Ecstall Mining Corp. (“Ecstall”), a company incorporated under the laws of the Province of British Columbia.

Subsidiaries are corporations in which the Company is able to control the financial operating, investing and financing activities and policies, which is the authority usually connected with holding majority voting rights. The consolidated financial statements include the accounts of the Company and its controlled entity from the date on which control was acquired. Ecstall uses the same reporting period and the same accounting policies as the Company.

All inter-entity balances and transactions, including unrealized profits and losses arising from inter-company transactions, have been eliminated in full on consolidation.

### ***Significant accounting judgements, estimates and assumptions***

#### ***Exploration and evaluation assets***

Upon acquiring the legal right to explore a mineral property (exploration and evaluation assets), all direct costs related to the acquisition of a mineral property are capitalized. Exploration and evaluation expenditures incurred prior to the determination of the feasibility of mining operations and the decision to proceed with development are recognized in profit or loss as incurred, net of recoveries.

## 2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

### *Significant accounting judgements, estimates and assumptions (cont'd)*

#### *Exploration and evaluation assets (cont'd)*

Development expenditures incurred to increase or to extend the life of existing production and incurred subsequent to the development decision, are capitalized and amortized on the unit-of-production method using estimated proven and probable reserves. When there is little prospect of further work on a property being carried out by the Company, the remaining deferred costs associated with that property are charged to profit or loss during the period that such a determination is made.

Management reviews the facts and circumstances suggesting if the carrying amount of the exploration and evaluation assets exceeds their recoverable amount on a regular basis.

#### *Exploration and evaluation assets -change in accounting policy*

During fiscal 2023, the Company changed its accounting policy with respect to exploration and evaluation expenditures. In prior years the Company's policy was to capitalize by property all costs directly related to the exploration and evaluation of mineral properties classified as exploration and evaluation assets.

The Company has elected to change this accounting policy to now charge to operations exploration expenditures as incurred, effective with the presentation of these financial statements, on a retrospective basis. (Note 15).

#### *Recent accounting pronouncements*

Accounting standards and amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

These condensed consolidated interim financial statements have been prepared using accounting policies consistent with those used in the Company's annual financial statements for the year ended June 30, 2023. It is, therefore, recommended that these condensed interim financial statements be read in conjunction with the Company's audited consolidated financial statements for the year ended June 30, 2023.

Accrued interest (Note 4)	5,554	1,974
	<u>\$ 11,406</u>	<u>\$ 7,591</u>

The Company anticipates full recovery of its receivables and, therefore, no impairment has been recorded against these amounts.

### 4. OTHER ASSETS

Other assets comprise of reclamation bonds totaling \$332,500 (June 30, 2023 – \$332,500) posted as security deposits with the Government of British Columbia in relation to the Akie and Kechika Regional properties (Note 8). The reclamation bonds are deposited in GICs through a financial institution and earn an average annual variable interest rate of approximately prime minus 2.90% with a minimum of 0.25% and reinvested on an annual basis immediately at maturity. Interest accrued on the GICs is included in receivables (Note 3).

### 5. TRADE PAYABLES AND ACCRUED LIABILITIES

	September 30, 2023	June 30, 2023
Exploration payables	\$ 23,113	\$ 3,140
Other trade payables	3,362	8,343
Accrued liabilities	45,552	40,304
	<u>\$ 72,027</u>	<u>\$ 51,787</u>

### 6. CEBA LOAN

On April 30, 2020, the Company received the Canada Emergency Business Account (“CEBA”) loan which is an interest-free loan to cover operating costs. The CEBA loan was launched by the government of Canada to support businesses by providing financing for their expenses that cannot be avoided or deferred, and assisting businesses for successful relaunch when the economy recovers from COVID-19. Repaying the balance of the loan on or before December 31, 2023, as extended from December 31, 2022 by the Government of Canada, will result in a loan forgiveness of \$10,000.

## 6. CEBA LOAN (cont'd)

Pursuant to IAS 20 *Accounting for Government Grants and Disclosure of Government Assistance*, the benefit of a government loan at below-market rate is treated as a government grant and measured in accordance with IFRS 9 *Financial Instruments*: the benefit of below-market rate shall be measured as the difference between initial carrying value of the loan (being the present value of a similar loan at market rates) and the proceeds received. In fiscal 2020, the Company estimated the initial carrying value of the CEBA Loan at \$30,671, using a discount rate of 10%, which was the estimated rate for a similar loan without interest-free component. The difference of \$9,329 was accredited to the loan liability over the term of the CEBA Loan and offset to other income on the statement of loss and comprehensive loss. On December 31, 2022, the terms of the loan was extended for repayment on or before December 31, 2023. The Company revalued the initial carrying value of the CEBA loan at \$27,764, using a discount rate of 10%, which was the estimated rate for a similar loan without interest-free component. As a result, the loan ending balance as at June 30, 2022 was changed to \$34,450 and an adjustment of \$3,607 was made accordingly.

## 8. EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many resource claims. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of its claims are in good standing.

### **Akie Property, British Columbia**

The Akie property is the Company's flagship exploration project and is host to the Cardiac Creek SEDEX Zn-Pb-Ag deposit. The Company owns a 100% interest in the Akie property, which resulted from Company expenditures and the acquisition of Ecstall Mining Corporation.

### **Kechika Regional project, British Columbia**

The Kechika Regional project, represented by a series of contiguous property blocks including Pie and Mt. Alcock, extends northwest from the Akie property. The Company owns a 100% interest in these properties, which were acquired during fiscal 2007 and 2008, including the acquisition of Ecstall, except as described below. The interest in the Mt. Alcock property is subject to a 1.0 % net smelter royalty.

In September 2013, the Company entered into an option agreement (the "Agreement") with Teck Resources Limited ("Teck") pursuant to which Teck could acquire up to a 70% interest in the Company's Pie, Cirque East and Yuen properties (the "Property"), three of the 10 regional properties that make up the Kechika Regional Project, on or before September 30, 2019.

In December 2017, Teck and Korea Zinc completed the requirements of the First Option to earn a 51% interest in the Property and in January 2018, Teck and Korea Zinc informed the Company that they would not be proceeding with the Second Option to earn an additional 19% interest in the Property. According to the terms of the Agreement, the parties will continue exploration of the Property under a Joint Venture arrangement on the 49%-51% basis, with Teck acting as the operator.

In August 2023, the Company entered into an option agreement (the "Option Agreement") with an arm's length third party (the "Optionee") based in British Columbia pursuant to which the Optionee may acquire 100% ownership of 103 contiguous mineral claims that make up the Kechika North Project; the northern extension of the Company's contiguous, district-scale land holdings that cover 140 kilometers northward from the Company's flagship Akie Property.

The deal grants the Optionee an option to acquire an undivided 100% legal and beneficial right, title and interest in and to the Kechika North Project for a cash payment of \$3 million dollars; to be made within two (2) years from the effective date of the agreement.

The Kechika North Project represents a contiguous group of claims that covers part of the Kechika Trough and is comprised of 6 properties identified by past historical exploration; named from south to north: Kwad, Weiss, Bear/Spa, Driftpile South, Saint and Thro.

## 12. CAPITAL MANAGEMENT

The Company's objectives of capital management are intended to safeguard the entity's ability to support the Company's normal operating requirement on an ongoing basis, continue the development and exploration of its mineral properties, and support any expansionary plans. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company considers its capital to be equity.

The Company's operations are currently not generating positive cash flow; as such, the Company is dependent on external financing to fund its activities. In order to carry out potential expansion and to continue operations, and pay for administrative costs, the Company will spend its existing working capital, and raise additional amounts as needed. Companies in this stage typically rely upon equity and debt financing or joint venture partnerships to fund their operations.

There is no certainty with respect to the Company's ability to raise capital. Management may require to seek additional sources of financing in the form of equity or debt financing in the future. These uncertainties may cast significant doubt about the Company's ability to continue as a going concern.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company's overall strategy with respect to capital risk management remained unchanged during the period ended September 30, 2023. The Company is not subject to any externally imposed capital requirements.

## 13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments as at September 30, 2023 were as follows:

	<i>Fair Value through</i>	
	<i>Profit or Loss</i>	<i>Amortized Cost</i>
<b>Financial assets</b>		
Cash	\$ 1,097,059	\$ –
Receivables	–	11,406
Other assets	–	332,500
<b>Financial liabilities</b>		
Trade payables and accrued liabilities	–	72,027
Due to related parties	–	1,398,686
Government Loan	–	39,016
	\$ 1,097,059	\$ 1,853,635

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

## 13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)

### Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of the financial instruments by valuation technique:

- i) Level 1 – Applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.
- ii) Level 2 – Applies to assets or liabilities for which there are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly such as quoted prices for similar assets or liabilities in active markets or indirectly such as quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions.
- iii) Level 3 – Applies to assets or liabilities for which there are unobservable market data.

Cash, are carried at fair value using a level 1 fair value measurement. The carrying value of receivables, other assets, trade payables and accrued liabilities, and due to related parties approximate their fair value because of the short-term nature of these instruments.

### *Credit Risk*

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its bank deposits of \$1,097,059 (June 30, 2023 - \$1,255,020). This risk is managed by using major Canadian banks that are high credit quality financial institutions as determined by rating agencies.

The Company's secondary exposure to credit risk is on its receivables. This risk is minimal as receivables consist primarily of refundable government sales taxes and interest accrued on GIC investments.

### *Liquidity Risk*

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. The Company achieves this by maintaining sufficient cash. As at September 30, 2023, the Company was holding cash of \$1,097,059 (June 30, 2023 - \$1,255,020) to settle its current liabilities of \$1,470,713 (June 30, 2023 - \$1,454,892). Management may be required to seek additional sources of financing in the form of equity or debt financing in the future.

### *Market risk*

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant and the Company, has exposure to these risks.

## 13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)

### *a. Interest Rate Risk*

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The Company is not exposed to significant interest rate risk.

### *b. Currency Risk*

The Company operates in Canada and is therefore not exposed to significant foreign exchange risk arising from transactions denominated in a foreign currency.

### *c. Price risk*

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors certain commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

## 14. SEGMENTED INFORMATION

The Company has one reportable operating segment, being the acquisition and exploration of resource properties in Canada. All of the Company's assets are located in Canada.

## 15. CHANGE IN ACCOUNTING POLICY

The Company had adopted a new accounting policy with respect to exploration and evaluation assets and expenditures in fiscal 2023. In prior years the Company's policy was to capitalize by property all costs directly related to the exploration and evaluation of mineral properties classified as exploration and evaluation assets.

The Company had elected to change this accounting policy to now charge to profit or loss exploration expenditures as incurred, effective with the presentation of these consolidated financial statements, on a retrospective basis.

The accounting policies in Note 2 have been applied in preparing the condensed interim consolidated financial statements for the period ended September 30, 2023. The comparative information for the period ended September 30, 2022, and the preparation of an opening statement of financial position on July 1, 2021.

In addition, these accounting policies in Note 2 had also been applied in preparing the consolidated financial statements for the year ended June 30, 2023, the comparative information for the year ended June 30, 2022, and the preparation of an opening statement of financial position on July 1, 2021. In preparing its opening statement of financial position, the Company had adjusted amounts reported previously in the financial statements. An explanation of how the transition from the amounts previously reported had affected the Company's financial position, financial performance, and cash flows was set out and disclosed. Please refer to the consolidated financial statements for the year ended June 30, 2023 and 2022, note 18 for detailed disclosures.

## 15. CHANGE IN ACCOUNTING POLICY (cont'd)

An explanation of how the transition from the amounts previously reported has affected the Company's financial position and financial performance is set out below.

(a) Statements of Loss and Comprehensive Loss – period ended September 30, 2022

- (i) Exploration expenses increased to \$50,252 based on net exploration for the period ended September 30, 2022, with a reclassification entry from exploration and evaluation assets.

The change in the accounting policy had no effect on the Company's statement of changes in shareholders' equity, other than the changes to deficit, as already shown and described above. Accordingly, no separate statement of changes in shareholders' equity is shown.

The changes to the statement of cash flow for the period ended September 30, 2022 are summarized as follows:

- (a) Net cash used in operating activities increased to \$195,352 based on allocation of net exploration expenditures from investing activities of \$59,376 being reallocated.
- (b) Net cash used in investing decreased by a corresponding amount as described above in note (a).
