Title to resource properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many resource properties. The Company has investigated title to all of its resource properties and, to the best of its knowledge, title to all of its properties are in good standing.

DA Property, Northwest Territories

The Company holds an 8.2% interest, subject to a 5% gross overriding royalty ("GOR") on diamonds, a 5% net smelter returns ("NSR") royalty on other minerals, and a 10% net profits interest ("NPI"), in certain mineral claims located in the Northwest Territories. Pursuant to an amended and restated Mineral Property Option Agreement, dated August 30, 1998, the Company has the option to reduce the GOR and NSR interests to 2.25% and 2%, respectively, and eliminate entirely the NPI by completing certain share issuances and cash payments to the original property owner within 90 days of a production decision.

6. SUBSEQUENT EVENTS

Subsequent to the period ended March 31, 2008:

(a) the Company terminated its option agreement with Megastar Development Corp. (Note 2). The option pertained to certain mineral tenures, partly within the Kechika Trough, that would have required an expenditure of \$1 million in 2008 to maintain the agreement. The Company's senior management believes it is in the best interest of the Company to proceed with a 2008 exploration plan that focuses on higher priority targets both on its 100% owned Akie property and on its 100% owned regional properties, where several potential drill targets exist.
